Summary

Motivated Computer Science and Mathematics student (double major, Honors) at Penn State. Experienced in AI, full-stack development, and entrepreneurship. Built first computer at age 10, launched a bitcoin mining operation in middle school, and developed a blockchain in high school. Conducted research for Penn State in ML hyper optimization.

Skills

Languages: Java, C++, C#, JavaScript, TypeScript, Python, SQL, Rust

Frameworks: React, Next.js, Spring

Tools & Technologies: MongoDB, Node.js, Git, Machine Learning, Artificial Intelligence, Deployment Pipelines

Focus Areas: Full-Stack, Data Science, Backend, UI/UX, AI, ML

EDUCATION

BS Computer Science & BS Mathematics, Penn State
Honors Student, Double Major, Deans List, Club Athlete,

08/2024 – 05/2028

Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Object-Oriented Programming, Discrete Mathematics, Calculus 3

CLUBS & LEADERSHIP

Penn State Behrend Entrepreneurship Club, Vice President
Speaker on LLC formation & corporations, Head of venture capitalist outreach

Hult Prize Team (Behrend) - Sargassum to Energy
Lead of Logistics & Data Science, Materials Engineer

PROJECTS & RESEARCH

Penn State Honors Research Project:
Hyperoptimization of Artificial Intelligence-Based Quadratic Equation Predictors

Optimized compact neural networks for quadratic root prediction using Bayesian optimization (**Optuna**), **engineering** minimal architectures that **achieved** high accuracy while **reducing** computational footprint.

NexHacks 2026

I developed **SwipeHire**, an **AI-powered** recruiting platform that ranks candidates by matching resumes to job requirements with real-time learning. Implemented **resume parsing**, recruiter profiling, and AI-driven candidate ranking in **24 hours**.
