EXPERIENCE

Bowie Forum, Austin TX - *Lead Developer and Database Manager*

October 2023 - January 2025

- Designed and deployed a **student forum platform**, managing both the **frontend UI** and **backend infrastructure**.
- Built with **React**, **MongoDB**, and modern deployment tools to ensure scalability and reliability.
- In 3 months increased user activity on the site by 3000%

Barcenas Holdings, Austin TX - *Management and Profitability*

February 2023 - December 2024

- Oversaw the **financial performance and operational efficiency** of multiple residential properties to ensure consistent profitability.
- Managed **client relations**, ensuring satisfaction through responsive communication, transparent reporting, and proactive issue resolution.
- Coordinated **maintenance, inspection, and renovation projects** to balance cost control with property quality.

Particles Interlinked, Location - *Full Stack Developer*

August 2023 - December 2023

- Developed an **interactive particle simulator** using Next.js, React, and Three.js to visualize subatomic behavior.
- Implemented **physics-based backend simulations** in Node.js for real-time computation and rendering.

EDUCATION

Penn State Behrend, Erie, PA - *BS: Computer Science & BS: Mathematics*

August 2024 - May 2028

Honors Student, Division III athlete, Double major CS and Math

AWARDS

UIL Academic All-State (2024) VEX Robotics Competition Winner (2023)
