EXPERIENCE

Lepus Analytics, Erie PA - Founder

August 2025 - Current

- Lepus Analytics specializes in solving highly complex problems in **data science**, **logistics**, and research using proprietary algorithms and cutting-edge computation.
- The company excels at implementing solutions and optimization via a **hybrid-classical stack**, to tackle challenging computational bottlenecks and complex **risk modeling**.

Bowie Forum, Austin TX - Lead Developer and Database Manager

October 2023 - January 2025

- Designed and deployed a **student forum platform**, managing both the **frontend UI** and **backend infrastructure**.
- Built with **React**, **MongoDB**, and modern deployment tools to ensure scalability and reliability.
- In 3 months increased user activity on the site by 3000%

Barcnas Holdings, Austin TX - Management and Profitability

February 2023 - December 2025

- Oversaw the **financial performance and operational efficiency** of multiple residential properties to ensure consistent profitability.
- Managed **client relations**, ensuring satisfaction through responsive communication, transparent reporting, and proactive issue resolution.
- Coordinated **maintenance, inspection, and renovation projects** to balance cost control with property quality.

EDUCATION

Penn State Behrend, Erie, PA - BS: Computer Science & BS: Mathematics

August 2024 - May 2028

Honors Student, Division III athlete, Double major CS and Math

AWARDS

UIL Academic All-State (2024) Manager of the Year (2025)
